Chronicle™, a unique combination of existing ideas, refines the expected casegood to be something more: modern, elevated, inviting. Designed in collaboration with Jess Sorel, Chronicle has an extensive selection of neutral finishes, which can be combined in one setting to create a unique and unexpected look. Natural wood veneers are hand selected and matched per suite rather than component, for seamless wood grain pattern across multiple pieces. Elegant and thoughtful details on all touch points invite the user to engage with their workspace.

A mix of materials, including wood, metal and back painted glass, applied within the same suite offer a unique look.
